INTRODUCTION

In presenting this Catalogue, we wish to call attention to the fact, that we are giving exceptionally good offers both on Quality and Prices.

We do not employ Agents to sell our stock. Did you ever consider that when you buy through Agents, Someone must pay for their salaries or commissions? This cost must be added to the selling prices and YOU are thereby compelled to pay More for your purchases. By selling direct, from Nursery to Grower, we have no Agents to pay and you get the benefit of this saving. This is why we can offer our Stock at Fair Prices without having to sacrifice Quality.

Our Nursery Stock is grown by up to date methods, under the personal supervision of one of our firm who has had years of practical experience along these lines. The greatest care is exercised to grow strong, hardy stock, and every precaution taken to insure it's being True to Name.

We Guarantee our Trees, Plants, etc. to grade up to Standard, both in Size and Quality, and will do all we can to please and satisfy our customers. A trial order will convince you of the merits of our stock: Any sized order you may send will be given the best of care.

NOTICE, — Orders for Spring Delivery should be sent in as early as possible. We will book your order and hold same until wanted. Terms are Cash with Order; or we will send C. O. D. ,providing one - half the purchase price accompanies the order.

WHITE GRAPE — Productive bearer: plants, low and spreading. Yellowish - white berry of large size.

BLK. CHAMPION — The standard black Currant. Plants are strong growers and productive

RASPBERRY

GREGG — Berry, good size and fine flavor; color, deep purple. Productive.

KANSAS — The hardiest black - cap. Good strong grower and heavy bearer. We recommend this variety.

CUTHBERT — Fruit large; color, a deep red. One of the very best for market and garden.

LOWDEN — Vigorous grower; large red fruit of superior flavor. Productive and one of the best shippers. Medium to late season.

STRAWBERRY

DUNLAP — The standard early variety. Fruit, a bright red color. Good keeper and shipper.

BRANDYWINE — Another good berry for market purposes. Ripens late.

MARSHALL — A very early variety. Berries large, good color and quality.

MICHAEL'S EARLY — Berries medium size and bright red color. A prolific bearer.

GRAPE

CONCORD -- An old standard of fine growing habits. Fruit is large and grows in good sized bunches. Color is a deep purple, nearly black.

WORDEN -- An early black grape. Prolific and hardy. Ripens before the Concord.

NIAGARA -- The standard White grape. A fine market variety.

DELAWARE -- One of the best Red varieties. Fruit has a thin skin, quality is excellent. Soil must be kept rich for best results.

Our aim is to grow only the Best Standard Varieties -- those which have proven by experience, to be most suitable for market and garden. By choosing these varieties we are assured of stock that will be Profitable to our Patrons. Fancy varieties at Fancy Prices, nearly always bring disappointment to the Grower.

NOTICE -- When trees or plants are received from the Nursery, they should be unpacked as soon as possible; then if you are not ready to plant, plow or dig a trench in the ground and heel in the stock. Spread out the roots and pack the earth firmly around them, covering to a depth of about four inches. It is also well to dampen the roots before heeling in.

Care, in the handling and setting of Plants, is a very important factor in Successful Growing.
